Sailing the Sea

A buddy asked me if I would like to go sailing 11
on the sea. I was eager to go. My dream was to 23
see at least one whale. 28

We planned to leave in the summer. It seemed 37
like a long time, but the day came for us to depart. 49
I was happy. Before we left, we packed enough 58
food to last for a week. We would have to fix all of 71
our meals on the boat. 76

It was so great to feel the sea breeze. We saw 87
many kinds of fish. We even saw seals jumping off 97
huge rocks into the deep water. 103

On the third day, I got the treat of my life. We 115
saw three whales leap out of the water. I 124
screamed with joy. 127

When we reached shore at the end of the 136
week, I was ready to put my feet on dry land. But I 149
hope I can sail on the sea next summer. 158
